Our horses are very gentle, and our instructors are focused on the safety of the group. Parents are invited to see progress on the last day of camp. Riding participants must weigh 230 pounds or less. A signed Chaparral Ranch waiver must be turned in at the first class. After care is available from 3:00-5:00 pm for \$10 per hour. SWIMMING INSTRUCTION

Trained instructors teach the fundamentals of swimming and water safety. Half-hour lessons are offered at Montague and Warburton pools. All pools are outdoors; pool temperatures are subject to weather conditions. Students will be tested at the first class to determine their instruction level. Children who have not taken swim lessons since last summer may test into a lower level than how they tested at the end of last year.

If your child is tested at a different level than the class they are registered for, aquatics staff will work with you to transfer your child in the appropriate class level.

PARENT & TOT 1 & 2 (7:1): The parent works with the child in the water while the instructor provides supervision and guidance. The goal of this class is to introduce children to water adjustment skills in a safe and friendly environment. This class is not intended to teach children how to swim. **Level 1 (ages 6-24 months):** Children who have had little or no previous water experience. **Level 2 (ages 2-4):** Children who have had 2 or more previous sessions in the water; submerge reluctantly or not at all; require floatation support at all times; or who may benefit from parental support in the water.

STARFISH (ages 4-6, 4:1): Beginning class for children who are ready to transition out of the Parent & Tot class, being in the water without parental support and have little or no aquatic experience. Children will learn to put their face in the water, blow bubbles, and float on their front and back with assistance.

SEA HORSE (ages 4 and up, 6:1): Children will learn to float on their front and back without assistance, glide on front and back without assistance, and swim on front and back for 5 yards.

SEA TURTLE (ages 4 and up, 6:1): For children who are able to float on their front and back independently and swim 5 yards using correct freestyle and backstroke. Children will be introduced to elementary backstroke.

MANTA RAY (ages 5 and up, 6:1): For children who are able to swim 15 yards using correct freestyle and backstroke. Children will be introduced to treading techniques, breaststroke, and head first entries.

SEA LION (ages 5 and up, 6:1): Designed for children who are able to swim at least 25 yards correct freestyle, backstroke, breaststroke, elementary backstroke, and enter water head first. Children will be introduced to the butterfly stroke and flip turns.

DOLPHIN (ages 6 and up, 6:1): Designed for children who are able to swim at least 50 yards correct freestyle, backstroke, breaststroke, elementary backstroke, perform dolphin kick for 15 yards, and be familiar with front and back flip turns. Students will work on refining their strokes.

SHARK (ages 7 and up, 6:1): Designed for children who are able to swim at least 100 yards correct freestyle, backstroke, breaststroke, and elementary backstroke. Students will be introduced to survival techniques and swimming distances up to 500 yards using all strokes.

MUSIC

TEACHER SEAN'S KID SING

This class consists of a group of children exploring musical concepts through circle singing games, dancing, chants, improvisations, instruments, and play. It's a Kodaly-based program that instills a love of music while teaching basic music literacy.

Singing a rich repertoire of folk music is used to develop the musical ear. We build skills in sight singing and ear training through solfège (do re mi). Lastly, we reinforce with a CD and songbook so children may practice at home.

BALLET SUMMER INTENSIVE

During this intense program, your young dancer's technical progress will be accelerated and expanded, as they build on their lasting friendships and passion for dance. In a small group setting, participants will receive astounding ballet training from three extraordinary former professional ballet dancers, Adolfo Marazita, Ikolo Griffin, and Kimberly Davey, and also explore contemporary dance. Their daily instruction will include ballet technique, pointe and variations, conditioning (stretching and strengthening), and contemporary classes. The intensive experience will conclude with your dancer performing onstage and demonstrating what they learned during the course.

POINTE BALLET

These are advanced courses; instructor approval is required before enrolling. Students enrolled without prior instructor approval will be withdrawn from class. **Beginning:** This pointe class is an exciting opportunity for dancers to improve their technical capabilities while learning what the world of classical ballet has to offer at an advanced level. PARK PROJECTS

In September 2013, Council adopted a goal to enhance community sports and recreational assets. Since then, Capital Improvement Project funding including developer contributions, grants, and donations have been directed toward improvements at several parks. Updates on park projects can be found online at www.SantaClaraCA.gov/ParkProjects. The parks & playgrounds that will be enhanced in 2019 include:

BOWERS PARK PLAYGROUND REHABILITATION

The Bowers Park Playground Rehabilitation was identified as needing improvement in 2017 through a Facility Condition Assessment. With contributions from Mitigation Fee Act funds from new housing development, Santa Clara Valley Open Space Authority, and Playcore, Bowers Park Playground will receive enhanced and inclusive play elements. Bowers Park & Playground is located at 2582 Cabrillo Avenue. Construction is expected to start in Spring 2019.

MACHADO PARK PLAYGROUND REHABILITATION

On December 19, 2017, Council approved a schematic design for Machado Park & Playground. The design blends neighborhood and community input with playground based best practices around inclusive pathways and play spaces, health, fitness, sustainability, and the natural habitat. In September 2018, community members completed a survey to record their favorite design elements and priorities. Machado Park is located at 3360 Cabrillo Avenue. Construction is expected to start in Spring 2019.

AGNEW PARK PLAYGROUND REHABILITATION

The focus of the Agnew Park Playground Rehabilitation project is to improve the playground. After community input, including a community meeting and on-line survey, and Parks & Recreation Commission recommendations, City Council approved the schematic design in July 2018. Agnew Park is located at 2150 Agnew Road.

REED & GRANT STREETS SPORT PARK

REED & GRANT STREETS SPORTS PARK

A groundbreaking ceremony on August 30, 2018 marked the official start of construction of the new Reed & Grant Streets Sports Park that will feature five lighted soccer fields, a multi-purpose community recreation building, a children’s playground, a picnic area, off-street parking, and other amenities. Reed & Grant Streets Sports Park is located at 1750 Grant Street. Construction is expected to be completed in Fall 2019.

FULLER STREET PARK PHASE II

Fuller Street Park opened in 1999, with a second unfunded phase to include a sport court. In 2003, a conceptual design was developed and the project was indentified as a “future unfunded priority.” In 2017, utilizing Mitigation Fee Act funds from new housing development, Parks & Recreation began Phase II of Fuller Street Park. Fuller Street Park is located at 61 Fuller Street. Construction is expected to start in Spring 2019.

MONTAGUE PARK REHABILITATION PROJECT

Between February 2014 and September 2018, Parks & Recreation conducted robust community outreach and engagement for the enhancement of Montague Park Playground through online surveys and input meetings. Improvements include new playgrounds, a park loop, enhanced landscaping, preservation of the tennis courts, and open meadow. Montague Park is located at 3750 De La Cruz Boulevard. Construction is expected to start in Fall-Winter 2019.

HOMERIDGE PARK PLAYGROUND REHABILITATION

In August 2017, Council selected Gates and Associates to provide professional playground and park design, engineering and project management services for the Homeridge Park rehabilitation project. The design will incorporate neighborhood and community input on the playground and park elements, use research best practices, create age-friendly places, pathways and inclusionary play spaces focused on health and fitness, sustainability, and the natural habitat. Homeridge Park is located at 2985 Stevenson Street. Construction is expected to start in Summer 2019.
